Diego Herrera

Software Developer

SUMMARY

Solutions builder, detail-oriented, technologist with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications, looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Developer at 100Devs, Remote

January 2022 — Present

- Developed modern and responsive web applications using React.js and best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

WhiskerGram (Full stack Web App) – Application designed as a social media platform for felines. With WhiskerGram, users can easily register or log in to create posts with pictures and gifs, add friends, and like posts. The app also features a sleek dark mode to enhance user experience.

Dream Home Remodels (Static Web App) – Fencing company static website that showcases their services and offers a "get quote" tool for user convenience.

Other Projects: Sonrisa Al Atardecer(Spa business), Taskify, Amazon Clone, Coin Exchange using paprika API,, and many more

Healthcare Representative at Maximus | Tampa, FL

October 2021 — Present

- Provide responses to telephone inquiries in a courteous and professional manner
- Maintain up-to-date knowledge of client regulations and policies
- Facilitated caller(s) with filling out online applications and submitting electronically to plan provider for processing

Shift Supervisor at Advance Auto Parts | Tampa, FL

September 2019 — August 2021

- Trained and supervised staff
- Achieved overall store sales goals and service objectives

Certificate & Contributions

JS-Beautify September 2022

Helped organize documentation and corrected grammatical errors

React 101 Certificate - January 2022

Learned foundational knowledge of the React library, including component creation, state management, routing, and usage of common tools and technologies in the React ecosystem.
